

# Analuz Marin Ramos

## Fullstack Software Developer

Santo André - SP, Brasil • +551196551-6184 • [analuz.mramos@gmail.com](mailto:analuz.mramos@gmail.com) • [LinkedIn](#) • [Portfolio](#)

Software Analyst with 2+ years of experience in fullstack development, working with .NET Framework, C#, SQL, and Azure tools. Strong involvement from conception to implementation of integrated solutions combining hardware, web, and mobile technologies, with a focus on industrial automation. Currently in the final year of a Computer Engineering degree. After completing an academic exchange program in Germany, I am seeking a new challenge where I can apply my skills and contribute to the company's innovation and success.

### AREAS OF EXPERTISE

- Backend (.NET Framework, C#, APIs REST, Python, Java)
- Frontend (HTML, CSS, JavaScript, Typescript)
- Mobile (.NET MAUI)
- Desktop & Cloud Computing
- Cloud and DevOps (Azure DevOps, Git, CI/CD)
- IA based projects (Azure, Machine Learning, LLM)
- Databases management (SQL Server, MongoDB)
- IoT and industrial automation

### PROFESSIONAL EXPERIENCE

#### Toledo do Brasil

##### Intern as Software Tester and Developer

- Progressed from testing and bug fixing to developing complete features in WPF, web, and mobile applications, as well as AI models for image classification and speech recognition.
- Gained hands-on experience with tools such as Azure DevOps, Git, and SQL Server, applying this knowledge in real-world projects.
- Hired as a full-time employee after just over a year as an intern, recognized for strong performance, proactivity, and fast learning.

##### Junior Software Analyst

- Contributed to the evolution of legacy systems and the creation of new solutions, participating from architecture design to development, testing, and validation.
- Participated in the integration of industrial weighing devices with IoT solutions, supporting the modernization and automation of processes.
- Worked in a multidisciplinary agile team, collaborating with engineers and technicians to ensure deliveries aligned with client needs and industrial requirements.

### EDUCATION

#### Westfälische Hochschule - Germany

B.Sc. in Ciência da Computação – Academic exchange program

*March 2025 – August 2025*

#### Faculdade Engenheiro Salvador Arena - Brazil

B.Eng. in Computer Engineering

*February 2021 – expected: 2026*

#### Federal University of ABC - Brazil

B.Sc. in Science and Technology – expected completion in 2025

B.Eng. in Management Engineering

*September 2021 – expected: 2027*
